THE IDEA

The project places a value on recyclable material while it is effectively re[illegible] the [illegible]ronment. This is of benefit to every individual, home, community, country and ESPECIALLY the local environment and the kids.

Giving the recyclable material a value (by giving it points that can be redeemed for valuable items) turns it into a tool of exchange in the hands of children. The empowerment of the children will hopefully make them more aware of the problem and offering the opportunity to get items they might not be able to get without the shop.

THE CONCEPT

Basically local kids bring plastic bottles to the swop shop and in exchange they get points which can be redeemed into the items offered in the shop. Items provided in the shop might be school equipment such as pens, exercise books or rulers as well as clothing, sporting goods or toys.

Since February 2020 almost 250 kids have registered for the SwopShop and they have exchanged more than 2.000 kgs of plastic - about 65.000 bottles - into valuable things.

The recyclable materials are picked up by Zanrec regularly and will be recycled as good as possible.

THE INITIATIVES

Ozeankind e.V. is an NGO registered in Germany and came to Zanzibar in 2017 for the first time. After cleanups and an ongoing first education and recycling project with two schools in Nungwi and Kendwa, The swap shop is the second major project on the island of Zanzibar.

Zanrec is a private waste management company which offers a fully integrated waste management solution for Zanzibar, handling all types of daily waste produced by both private and industrial/ commercial sectors and ensure that it is processed in a sustainable way. We were founded in 2011, and now working with around 100 hotels on the Island.

HOW YOU CAN HELP

If you want to support the SwopShop project or future shops on Zanzibar, please contact us on the following email address:

hallo@ozeankind.de (english/german)

or contact the Ozeankind Zanzibar Representative directly: George Lesley +255 719953803.
You can get more information on this and other projects here: www.ozeankind.de
